SUMMARY

I am a dedicated **Linux System Administrator (RHCSA Certified)** with **over 4 years of hands-on experience** managing **RHEL servers** and **basic AIX administration**, along with automation using **Ansible and Shell scripting**. My expertise includes configuration, maintenance, and troubleshooting of Linux systems in both **on-premises and AWS cloud environments**. I have hands-on experience managing **AWS services such as EC2, EBS, IAM, S3 and CloudWatch**, supporting secure, scalable, and highly available infrastructure. With a strong focus on **security hardening, patch management, and user administration**, I am committed to deploying optimized OS configurations that align with organizational needs, ensuring **peak performance, reliability, and compliance**.

EXPERIENCE

Linux System Administrator

TATA CONSULTANCY SERVICES

📅 29/12/2021 – Present 📍 Kolkata
